MOBILE BANKING

The functionality in our mobile banking app remains the same with a new look! You'll notice any area where you are able to tap to navigate (like Accounts, Transfers, Bill Pay and more) has the look of a button/tile.

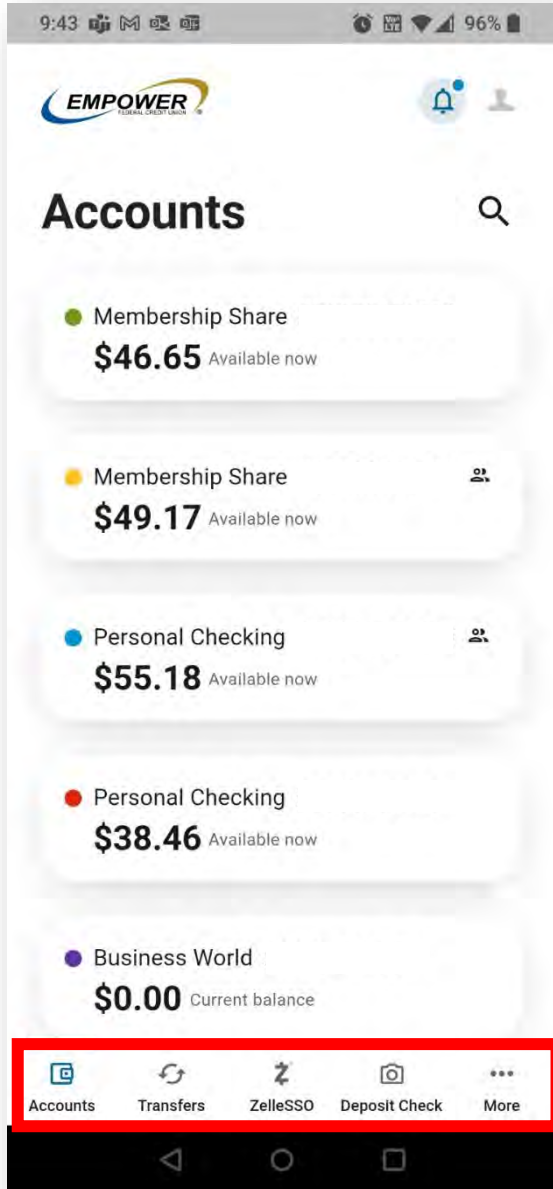

Android: Androids used to have a menu icon (top left corner) to access navigation options. The new look has the navigation options on the bottom of the screen.

OLD ANDROID NAVIGATION

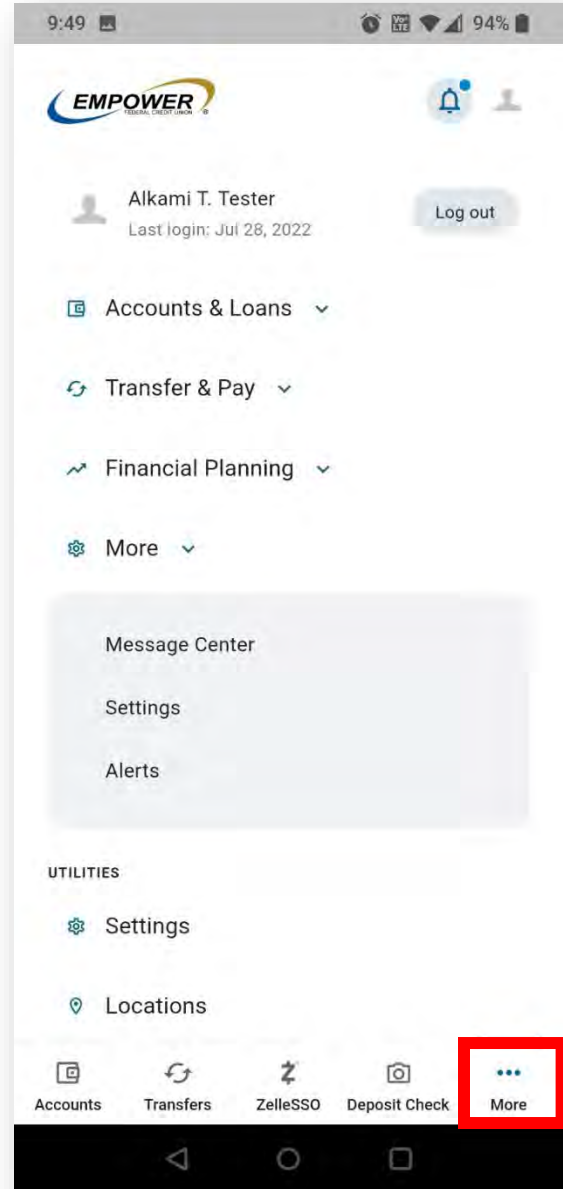

NEW ANDROID NAVIGATION

Navigation options are now available at the bottom of the screen

NEW ANDROID NAVIGATION

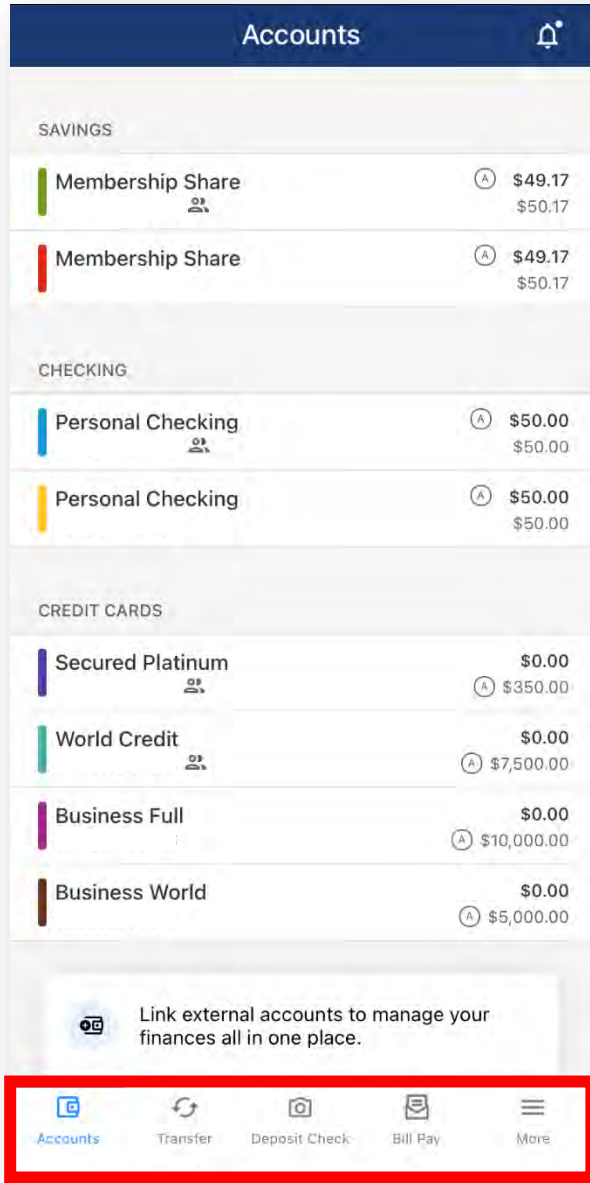

The *More* button displays additional navigation options

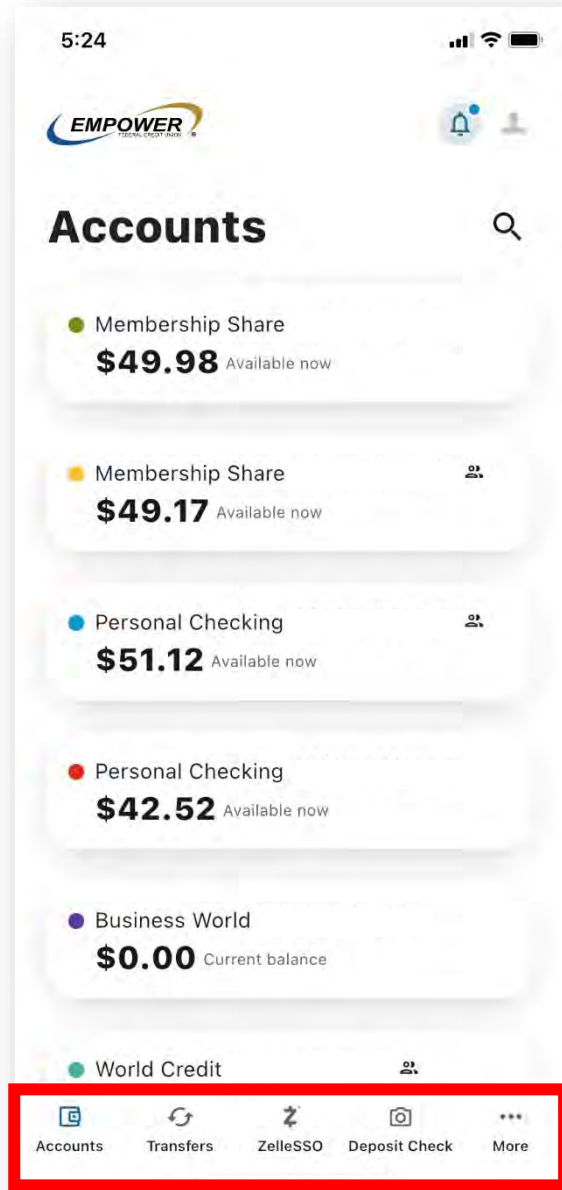

Notice the appearance of the **New Android Navigation** Account tiles above in comparison to the **Old Android Navigation** screenshots. This is a great example of what you can expect with the new look.

iPhone: iPhones will continue to have the navigation bar at the bottom of the screen.

OLD IPHONE NAVIGATION

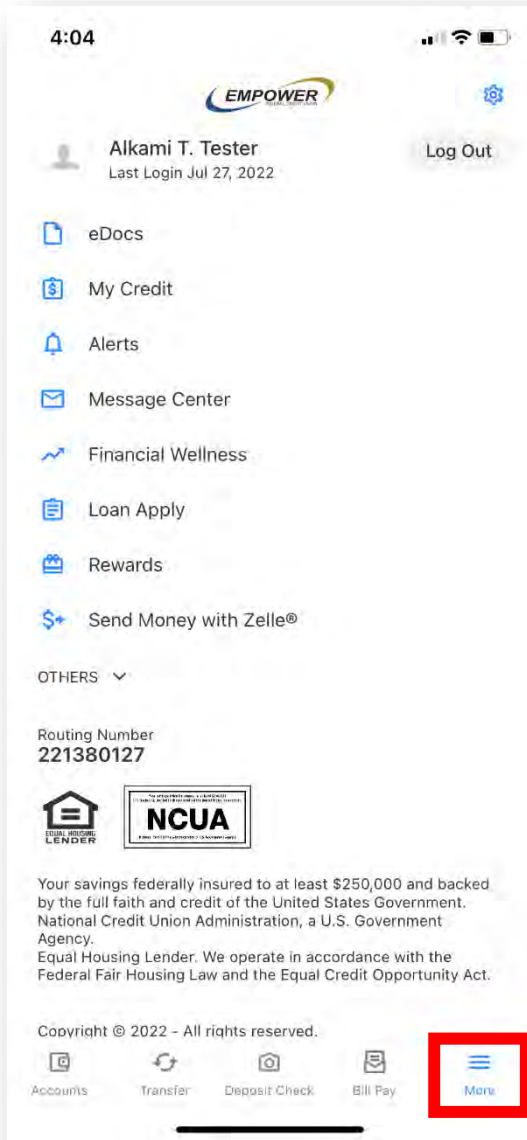

NEW IPHONE NAVIGATION

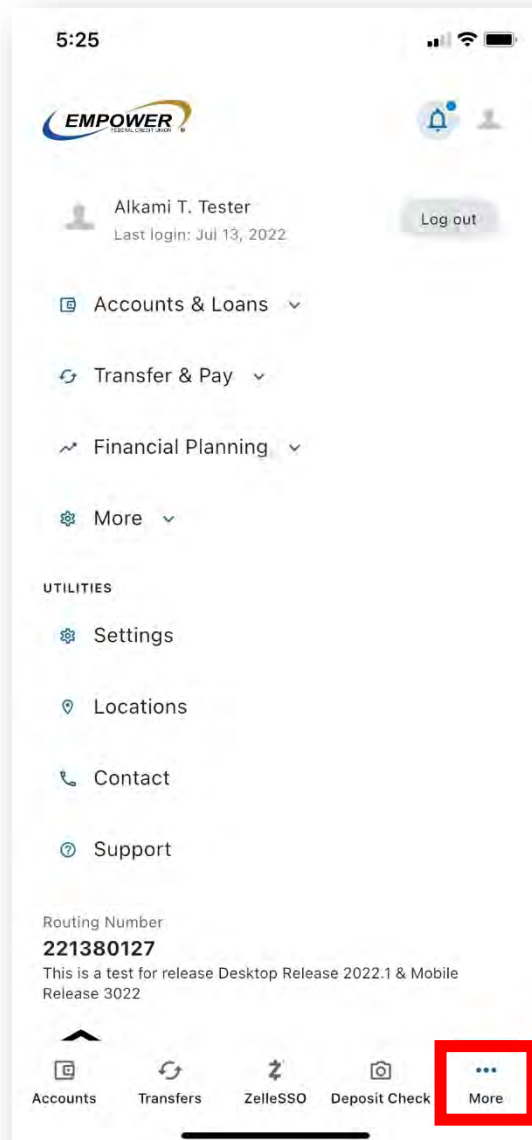

Notice the **Navigation menu** is available at the bottom of both old and new screenshots. The biggest difference for iPhone users is the new look with tiles.

**OLD IPHONE NAVIGATION
MORE menu**

**NEW IPHONE NAVIGATION
MORE menu**

The **More** menu option is new for Androids and remains an option for iPhones. Notice in the new version that some navigation areas have additional dropdown (submenu) options.

Accounts & Loans

- Accounts
- Deposit Check
- Rewards
- Loan Apply
- eDocs
- Transaction Disputes

Transfer & Pay:

- Transfers
- Bill Pay
- Check Services
- Send Money with Zelle
